i2 Analyst's Notebook

i2 Analyst's Notebook

– is a visual intelligence analysis environment that can optimize the value of massive amounts of information collected by government agencies and businesses. With an intuitive and contextual design it allows analysts to quickly collate, analyze and visualize data from disparate sources while reducing the time required to discover key information in complex data. i2 Analyst's Notebook delivers timely, actionable intelligence to help identify, predict, prevent and disrupt criminal, terrorist and fraudulent activities.

i2 Analyst's Notebook helps organizations to:

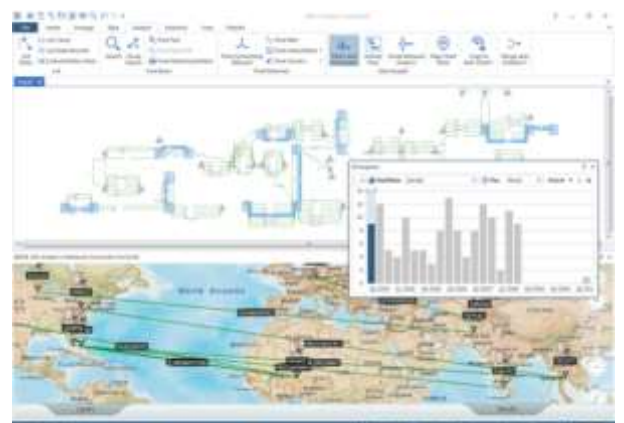

Rapidly piece together disparate data into a single cohesive intelligence picture

Identify key people, events, connections and patterns that might otherwise be missed

Increase understanding of the structure, hierarchy and method of operation of criminal, terrorist and fraudulent networks

Simplify the communication of complex data to enable timely and accurate operational decision making

Capitalize on rapid deployment that delivers productivity gains quickly using a well-established visual analysis solution

Combine association, temporal and geospatial data visualization to provide multidimensional views and aid comprehension.
